# GEN MED

## Medical Weight Loss for Surgical Readiness

Preparing You For Surgery,  
Empowering Your Health

## Is This Program Right for You?

This program is specifically designed for patients who need to lower their BMI in preparation for surgery.

### Program Eligibility:

- Patients with a BMI of 35 or greater

## How the Program Works

The GenMed program is a structured, medically-supervised approach to weight loss.

### Medication-Assisted Weight Loss:

The program utilizes a GLP-1 compounded medication to support your weight loss journey

### Program Goal:

The program is designed to help patients achieve a 5–15% reduction in body weight prior to surgery scheduling.

## Your Journey with GenMed

Your path to surgical readiness is carefully managed by our medical team.

### Personalized Consultation:

The program begins with a thorough consultation to review your health history and establish a personalized weight loss plan.

### Ongoing Medical Management:

You will receive continuous medical management and support to monitor your progress and make any necessary adjustments.
